

LENA

START[®]

About LENA START

LENA Start is a **FREE** evidence-based community program designed to provide families "talking tips" that help facilitate their child's language skills during the first few years of life

How LENA start works?

- 10 weekly **virtual** sessions with other families
- LENA device used to measure your child's language
- Provide parents with **feedback, training, and research-based strategies**

Who is eligible?

Children with **hearing loss** who are **0-3** years of age and their families
